

**Department of Biomedical Sciences  
Supplemental Application Information**

Please provide the following information and upload this form when submitting your University at Albany application on Apply Yourself.

[http://www.albany.edu/graduate/online\\_app.php](http://www.albany.edu/graduate/online_app.php)

Name: \_\_\_\_\_

I am interested in the following track(s):

- Immunology and Infectious Diseases
- Biodefense and Emerging Infectious Diseases\*\* (see page 2)
- Molecular Genetics
- Neuroscience
- Structural and Cellular Biology

Please provide a list of 4-6 faculty with whom you are interested in working. Visit <http://www.wadsworth.org/bms/faculty.html> to review faculty research interests. Please note that this does not represent a commitment on your part, and if you enroll in the Department, you will still be free to choose other faculty as mentors.

## **Training Program in Biodefense and Emerging Infectious Diseases**

This is an interdisciplinary program, funded by the National Institute of Allergy and Infectious Disease (NIAID), to prepare the next generation of scientists who will develop integrated research programs in biodefense preparedness and response to infectious threats. Fellows will receive broad training in bioterrorist agents, emerging infectious disease, and epidemiology.

Applicants to the doctoral program may apply for a Fellowship in Biodefense and Emerging Infectious Diseases, which includes a competitive stipend, tuition, health insurance, and travel to a scientific meeting.

Candidates who wish to apply for this fellowship must be either a US citizen or a permanent resident, and must submit a brief essay discussing their interests and outlining their goals in the area of biodefense and emerging infectious diseases.
