PART 22

ENVIRONMENTAL DISEASES

22.11 Reporting of pesticide poisoning. Every physician, health facility and clinical laboratory in attendance on a person with confirmed or suspected pesticide poisoning or with any of the clinical laboratory results as described in section 22.12 of this Part, shall report such occurrence to the State Commissioner of Health within 48 hours. This report shall be on such forms or in such manner as prescribed by the State Commissioner of Health.

Historical Note

22.12 Reportable laboratory tests for pesticide poisoning. For the purposes of section 22.11 of this Part the following laboratory tests are reportable to the State Commissioner of Health:

(a) Blood cholinesterase levels which are below the normal range established by the clinical laboratory performing the test in accordance with quality assurance requirements established by the permit-issuing agency.

(b) Levels of pesticides in human tissue samples which exceed the normal range established by the clinical laboratory performing the test in accordance with quality assurance requirements established by the permit-issuing agency.

Historical Note
