

Clinical Laboratory Evaluation Program

Permit Reapplication

Ownership Attestation Guide

Laboratory ownership information is reviewed annually as part of the permit reapplication process. Please review this document carefully with your legal counsel to ensure your laboratory ownership is reported as requested.

Laboratories are required to upload a list of DIRECT and INDIRECT OWNERS during permit reapplication. These lists should be prepared in a single document to be uploaded into eCLEP. Note that the filename may not contain any special characters or spaces (e.g., "PFI XXXX Ownership 4-2026.pdf" is not acceptable.) "PFIXXXOwnership2026.pdf" is acceptable, but "PFI XXXX Ownership 4-2026.pdf" is not acceptable.)

Files are uploaded in eCLEP by clicking the Upload link under the Ownership tab. Add the owner list file to the box titled "List of Owners".

For Laboratories reporting a change in ownership at time of renewal the following documents must be submitted:

- [Disclosure of Ownership, Controlling Interest, and Corporate Membership Statement](#)
- List of Direct and Indirect Owners
- Copy of your SS4.

Definitions:

- **Direct ownership** means an individual or entity with an ownership interest or controlling interest in the applying facility.
- **Indirect ownership** means an individual or entity with an ownership interest, controlling interest, or corporate membership, in an entity with direct or indirect ownership in the applying clinical facility. Indirect owners who hold a ten (10) percent or greater ownership interest, controlling interest, or corporate membership, are required to be disclosed by the applying clinical facility.
- **Ownership Interest** means the possession of stock, equity in the capital, or any interest in revenue of an entity.
- **Controlling interest** means the ability to direct or control the operation or management of an entity. Members on the Board of Directors or Board of Trustees for not-for-profit corporations are considered to have controlling interests. Any individual or entity with a ten (10) percent or greater controlling interest is required to be disclosed by the applying clinical facility. Licensed physicians who are included on the Board of Directors/Board of Trustees for a not-for-profit corporation are required to disclose their authority to order laboratory tests if they have greater than 10% controlling interest in the applying clinical facility.
- **Corporate membership** means an individual or entity with a voting interest in a not-for-profit corporation that directly owns the applying facility. Corporate membership includes, but is not limited to, the right to vote in the election for directors of the clinical laboratory or on fundamental corporate transactions such as closing the business or amending the bylaws.
