5. Click “Submit Human Specimen.”
6. Complete the Submitter fields.
   Add the Accession or Specimen # to the “Specimen report sent to ECLRS?” box.
   Click Import.

7. Select the Shipping Address and correct any errors. Clicking on the red icon provides additional error details.

   **NOTE:** “Exact match not found…” occurs when the test name from the ECLRS record doesn’t have an exact match in CLIMS.

   Click “Edit Tests” (see the green box in the image above) and then click “Add more Tests” to see potential matches.

   Select the desired test by checking the box and click Order Tests. Correct any errors and then Save Changes.
8. When there are no more errors, the “Continue to Review” button becomes available; click it to continue. And then click “Submit” to finalize the order and displays the Shipping Manifest.

9. The Shipping Manifest indicates the order is finalized and ready to ship. Print the manifest to submit with the specimen(s) using the “Print Order” button in the upper right corner. Individual requisition forms are not needed.
Note for users submitting reports to ECLRS via ECLRS Lab Live Reporting:
If you manually submit your report to ECLRS, you can use the Wadsworth Remote Order Entry button upon completion of the submission to automatically transfer the information to CLIMS. After clicking the button, you will be transferred the Patient List page in CLIMS and can complete your order starting at number 7 above.
