POTABLE WATER

Sample Name	Description	Ampulization Details
	Ten samples for qualitative determination	
TOTAL COLIFORM /	of total coliform (Presence/Absence	Ton 100 ml. full volume
E. COLI	testing) and, if present, the determination of E. Coli	Ten, 100 mL, full volume aqueous samples
HETEROTROPHIC		
(STANDARD) PLATE COUNTS	One sample for enumeration of heterotrophs	One, 100 mL, full volume aqueous samples
		One, 100 ml, full volume
	One sample for quantitative enumeration	aqueous samples for
E. COLI	of E. Coli	quantitative enumeration

NON-POTABLE WATER

Sample Name	Description	Ampulization Details
TOTAL COLIFORMS	One sample for the enumeration of total coliform	one, 100 mL, full volume aqueous sample
FECAL COLIFORMS	One sample for the enumeration of fecal coliform	one, 100 mL, full volume aqueous sample
	One sample for the enumeration of	one, 100 mL, full volume
ENTEROCOCCUS	Enterococcus bacteria	aqueous samples
E. COLI	One sample for the enumeration of E. Coli	one, 100 mL, full volume aqueous samples
